Advanced Desktop Security Device

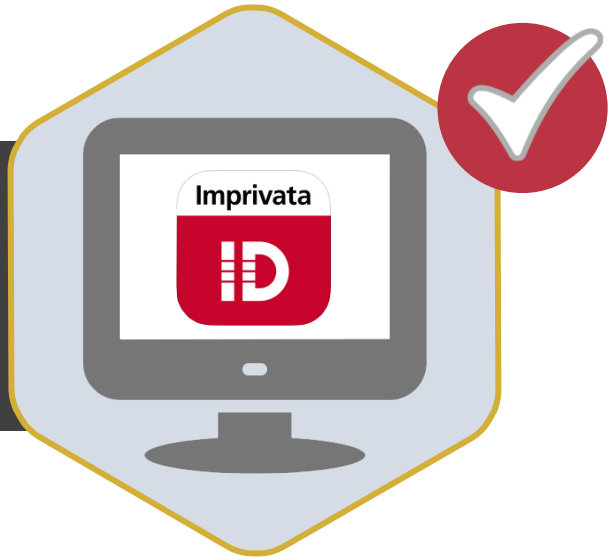
Multifactor Standalone Security Pod with RFID, Biometrics, and Integrated BLE

# KSI-1900 HCFFFB-21

## Strong Multi-Layered Endpoint Security

Integrated fingerprint biometrics
Contactless RFID logon-logoff
Imprivata® Confirm ID compatible
DEA EPCS compliant
Electronic health records protection
Multifactor authentication
Password replacement solution
Compact form factor
Integrated finger placement guide
Speeds workflow
Adjustable mounting bracket option

- Convenient hands-free mobile auth speeds workflow
- Multifactor authentication secures the desktop
- ePrescribe ready in compliance with DEA requirements
- Secure biometric fingerprint authentication
- Fast RFID tap in, tap out



Passwordless solution protects shared workstation endpoints from insider threats

## Hands-Free Mobile Authentication

# Pro-Grade Components, Key Compatibilities

Replaces burdensome passwords with convenient, EPCS-compliant fingerprint biometrics and hands-free mobile authentication

Integrated, contactless RFID provides another layer of identity and access control

Frees up valuable thin and zero client ports

## Features

- Integrated rf IDEAS WaveID® contactless dual band reader
- Integrated HID® TouchChip TCET Module
- Multifactor authentication in one compact device
- Imprivata® Enterprise Access Management compatible
- Imprivata® Confirm ID compatible
- DEA ePrescribe ready
- Protection of Patient Health Information (PHI)
- Password replacement solution
- HIPAA and GSA FIPS 201 compliant
- All functions routed through one USB cable
- Compact design conserves desktop space

## Specifications

- Weight: 5.6 oz.
- Dimensions: 4” D x 2.75” W x .75” H
- RFID: 125 kHz & 13.56 MHz frequencies
- Fingerprint sensor: HID® TouchChip TCET Module
- Bluetooth® low energy module
- Flashing fingerprint and RFID reader LEDs
- Windows, Mac, Linux, thin/zero client compatible
- High-speed USB interface
- Color: Black
-

HIPAA COMPLIANT
