OF THE YEAR**

KSI 1700 & 1800 SERIES KEYBOARDS

KSI'S LINKSMART™ SUITE OF PRODUCTS AIDS IN ELIMINATING 98% OF HARMFUL BACTERIA AND CROSS CONTAMINATION

Our distinctive, patented red **LinkSmart™ button** disengages keys for easy cleaning with approved germicidal wipes

1

Scheduled push notifications generated from San-a-Key® software provide end users with cleaning reminders, keeping our keyboard germ-free 24/7

2

Available in multiple colors, the durable surface of the 1800 Series can be scrubbed, sprayed, and wiped

3

RFID badge reader security offers convenient SSO authentication and compatibility with leading software providers

4

Smooth, crevice-free surface prevents dirt penetration, and makes for a comfortable typing experience on full travel, laser etched keys

5

KSI 1700 Series is an **all-in-one solution** featuring our LinkSmart™ button, integrated Eprescribe-ready fingerprint biometrics, and RFID security, as mix-and-match options

6

Real-time San-a-Key® analytics provide a convenient, centralized data collection point to manage disinfection of keyboard surfaces

7

The **compact design** of our 1800 Series fits most standard medical carts and uses minimal desktop space

8

The **detachable USB** on our 1800 Series eliminates time-consuming removal from messy cabling bundles

9

3 levels of backlit illumination offer unobtrusive use in darkened rooms for improved patient care

10

"Clinical staff at our hospitals liked both the feel of the keyboards and the ease of cleaning."

Steve Czapl, Main Line Health Director of IS Customer Support

Awarded only to the "best and brightest," KSI is proud to be the winner of AHE's Innovation of the Year for our groundbreaking LinkSmart™ that is poised to change the face of patient care.

AHE's Recognition Committee sees what we see – that our technology is an invaluable tool to reduce HAI's, improve employee productivity, and enhance patient care. KSI is honored to have the opportunity to serve the healthcare community with products that are rewriting the book on infection control and desktop security while bettering the lives of others.

KSI's quality healthcare infection control and security products,
 assembled right here in the U.S.,
 are time-tested by satisfied end users around the globe

For over 35 years, KSI has been relied upon to provide excellent service that endures long after our products are in place
