

When your keyboard needs to be disinfected - Clean it with Ease

Feel confident that you are protecting your patients and co-workers from the spread of germs & viruses

KSI's Cleaning Button

KSI's keyboards allow you to clean your keyboard in seconds using the germicidal wipes already in use at your hospital.

Workstation#	Date	Time	Employee#
12	9/11/2014	9:00 AM	95362
2	9/12/2014	8:20 PM	23665
26	8/25/2014	1:00 PM	66329
43	8/21/2014	3:11 AM	59113
17	8/12/2014	8:21 AM	24881

Analytics Software allows Infection Control to:

- * Know what keyboard was cleaned
- * By whom it was cleaned
- * When it was last cleaned

Patent# US 8,168,119 B1
