

Full-Sized, Disinfectable, Multifactor Authentication Keyboard

## KSI-1700R SX HCFFFB-21

### All-in-One Healthcare Keyboard

Full-sized hygienic keyboard with silicone-covered keys

Integrated contactless RFID logon-logoff | Integrated biometric fingerprint sensor

Imprivata® Confirm ID compatible | Imprivata® Proximity Aware compatible

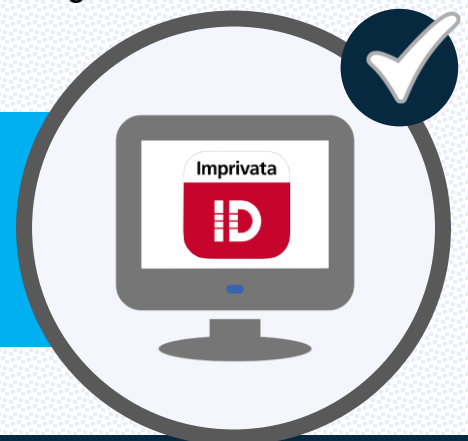

EPCS compliant | Electronic health records protection

Cleaning button disables keys for disinfection

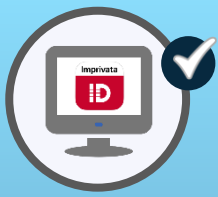

Crevice-free surface prevents penetration of dirt and germs

Can be scrubbed, sprayed, and wiped

- Imprivata® Confirm ID ready for hands-free mobile authentication
- An integral part of your healthcare IAM strategy
- ePrescribe ready in compliance with DEA requirements
- Silicone surface is easy to disinfect with approved germicidal wipes

## ADVANCED DESKTOP SECURITY

**imprivata**

Imprivata® OneSign, Confirm ID, and Proximity Aware compatibility protects PHI, secures ePrescribe, and offers hands-free mobile authentication

**LINKSMART**

KSI's LinkSmart® button with optional San-a-Key® software is a complete infection control solution and IP compliance monitoring tool for the clinical desktop

**HID**

Integrated HID® Crossmatch® fingerprint biometrics is key to meeting DEA-mandated ePrescribe regulation and achieving multifactor desktop security

**rf IDEAS**

rf IDEAS® dual band reader is part of your IAM, multifactor authentication strategy, securing the desktop with quick, contactless smart card logon, logoff

## MULTIFACTOR SECURITY and INFECTION CONTROL

KSI-1700R SX HCFFFB-21 is a premier, feature-packed tool for the clinical desktop that improves patient care and worker efficiency

KSI's patented LinkSmart® cleaning button, with optional San-a-Key® software, keeps your desktops disinfected all day

Conserves valuable thin and zero client ports

## PROTECTS PHI

Meets EPCS two-factor requirement set forth by DEA

### FEATURES & BENEFITS

- Multifactor authentication secures the desktop
