

Human Presence Detection + Security Key Ports + NFC

KSI-2100 HPRB-23 combines convenient security key logon with auto logoff

Keyboard integration of Type C and Type A ports provides the perfect solution for use of popular security keys

Log off with silent walkaway PresenceLock™ human presence detection

PC lock is automatic
No more unsecured desktops due to user oversight

Our passwordless solution is FIDO®-ready.

Secure logoff without external software.

PresenceLock™ detects user presence in real time to securely lock the PC upon walkaway

Set detection zones based on distance from sensor

Simple to program settings:
on, off, distance, timing

Locks the user's PC within
seconds after departing workstation

Prevents an unauthorized person
from accessing an active session at a vacant desktop

The KSI solution combines easy auto logoff protection with FIDO®-ready passkey access for convenient, passwordless authentication
