

WB108XE

Mechanical Keyboard for Apple Devices

Mechanical Strength, Complementary Minimalist Design

Windows® | macOS | Android™ | Linux

Our WB108XE Pine professional mechanical keyboard is designed especially for Mac users. Full-sized, 108-key design features the latest Apple layout and preprogrammed Mac hot keys. Popular Cherry MX Red key switches. Multi-system compatibility – built for Apple devices and compatible with all leading operating systems – macOS, Windows, Android, Linux, iOS. Choose your input mode and switch at will – Mac or PC. Black Type A to Type C affixed nylon USB. Real full-key NKRO design for quick, accurate response when multiple keys are pressed simultaneously. Simulated mouse mode using the number pad.

Preprogrammed Mac hot keys also correspond to Windows OS

- Emoji popup screen
- Aggregate / segregate all windows
- Screen brightness control
- 6 media keys
- Screenshot
- Menu bar access
- Language selection

Programmable Hot Keys

- Spotlight search
- Do not disturb
- Dictation
- Calculator
- Calendar
- Browser access
- Siri voice assistant

Program up to 12 macros. Four macro delay settings. Sturdy, retractable feet enhance stability and ergonomics. Wear-resistant, ergonomic PBT keycaps are superior to ABS – high performance with a delicate touch. Long-lasting dye sublimation legends. Durable plastic housing.

Minimalist aesthetic, consistent with Apple desktop design. Increased productivity for work, home, and on-the-go.
